Three Sustainability Hurdles and How to Overcome Them

Noted sustainability consultancy Lavery Pannell reported recently that organizations continue to struggle with the how's of sustainability. Based on their own experience, Lavery and Pannell observe that companies eyeing both sustainability and profitability commonly encounter three obstacles.

The hurdles are:

- Moving beyond compliance with environmental standards
- Integrating sustainability into the fabric of a company's operation
- Converting a sustainability program into a long-term engine for competitive advantage.

Knowing the hurdles is not enough.
